EXECUTIVE SUMMARY

The overwhelming response of students to the 2006 Master's at Maroochydore Workshops (MAM), was one of excitement, enthusiasm, adventure and happiness – tinged with joy in having heaps of fun, renewing acquaintances and friendships and, along the way, gaining some more new friends! The atmosphere of creative learning was like nectar from the Gods – there to be imbibed at will. Suffice to say, all who participated in this event, were intoxicated for the entire 10 days!

It is the best event of its type, to date, for teachers, students, facility hosts and the organizers – Fibre Artists Conference (Qld.). Workshops ran smoothly, with suitable times for creativity and exploration of skills. Class sizes were good, with plenty of individual attention given to students, in mostly equal amounts of time. Nothing was “too much” for any teacher to “give”. As always though, students can ‘never get enough’ of learning and creating, especially when they have the opportunity to learn from such high calibre teachers – all Masters of the Art in their own right.

Students traveled from near & far, coming from Brisbane, Canberra, Mackay, Victoria, New South Wales, Sunshine Coast and New Zealand. Our student from New

Zealand flew over especially for this one event and as she has explained: “New Zealand seems to be a long way, BUT, it is only 3 hours away by plane and 1 hour by bus”. So, in a nutshell, Maroochydore is accessible to all.

Everyone enjoyed Maroochydore and its surrounding districts. No one had any problems in booking accommodation and/or meals.

The venue was relatively easy to find and was “just the perfect place” for what was achieved.

To sum up, all students agreed that they received value for money, both in terms of the workshops and the techniques learned, as well as accommodation.

2007 Master's at Maroochydore (MAM) promises to be an event better Event, with an estimated 8 Masters participating – teaching a whole host of NEW TECHNIQUES & Fabric Art Dolls & Characters.
